

MISSION

The Batangas City Water District is committed to improve the quality of life of the residents of Batangas City by ensuring a safe, adequate and affordable water supply, developing a sustainable water resource program as well as providing an effective wastewater disposal system.

In pursuit of this mission, we shall promote world-class services that are responsive to our customer's basic needs and we shall bind ourselves to the highest standards of performance, competence, integrity, and dedication.

CORE VALUES

The BCWD family is composed of dedicated, service-oriented, proactive and highly competent personnel bound to provide safe and adequate and affordable water to its customers.

We are fair accountable and responsible in whatever we do in our community and actively participate in protecting our environment.

We are confident that we can achieve our goal of making the BCWD one of the best water providers in the country.

VISION

To be acknowledged as one of the best and the leading water provider in the country with high regard to the welfare of the community and environment.
